Certified High Fiber Rabbit Diet is a complete rabbit diet formulated to support maintenance of research animals when reproduction, lactation and growth are not major goals. Free choice feeding is recommended. If animals become obese it may be necessary to restrict the level of feed intake. Levels of feed intake of 150-200 grams per day, depending on body size and condition have been used to maintain body weight. Plenty of clean, fresh water should be available to the animals at all times.
